Responsibilities

- Utilize your customer service skills by communicating directly with customers in the office setting, while learning about Holmes Agro's products and services
- Support operational activities in one of our warehouses throughout the spring (fertilizer, seed, or crop protection), including shipping and receiving, and inventory management
- Participate in crop scouting and pest management efforts throughout the growing season, and soil and tissue sampling in late summer and fall
- Accompany a senior agronomist on customer visits, helping to position agronomic tools and services to maximize customers crop performance
- Develop crop plans and agronomic actions using our MyFarm database to improve customers' crop production
- Promote Holmes Agro and the products, service & programs we deliver to our customers
- Support customers stewardship efforts such as 4Rs, Precision Agriculture, Pest Assessments, & Record Keeping

Qualifications

- A positive, team-first, attitude and a dedication to personal improvement and skill development
- Strong time management and organizational skills
- Good communication and interpersonal skills to allow you to provide a positive experience and work well with customers, suppliers and co-workers
- Willing to work seasonably long hours in spring and fall
- Strong agronomic knowledge, with the ability to apply technology to help customers succeed.
- Passion for Agriculture
- Willing to achieve CCA designation (having CCA would be considered an asset)
