

OPERATIONS MANAGER

Location: Orangeville

Responsibilities

- Operational Leadership: Manage daily plant and warehouse operations including fertilizer blending, bagging, and logistics, ensuring equipment functionality and operational reliability.
- Hands-On Day to Day Operations: Provide direct support for Housekeeping, troubleshooting and preventative maintenance of mechanical systems and plant equipment to minimize downtime.
- Team Development: Coach and support staff to meet performance goals and foster a culture of accountability and professional growth.
- Inventory Management: Lead shrink reduction initiatives, reconciliation processes, and cycle counts.
- Capital Projects: Support planning and execution of facility upgrades and equipment investments, including technical evaluations.
- Recruitment & HR: Drive seasonal and full-time hiring, performance reviews, and personalized development plans.
- Health & Safety: Lead safety programs, inspections, and emergency response planning.
- Environmental Compliance: Ensure responsible facility operations and liaise with partners on sustainability initiatives.

Qualifications

- Proven experience in operations management with agricultural background is an asset.
- Strong leadership, communication, and organizational skills.
- Ability to manage cross-functional teams and drive strategic initiatives.
- Hands-on experience with forklift and loader and mechanical systems; comfortable working at heights; ability to troubleshoot and support maintenance activities.
- Mechanical aptitude and familiarity with industrial processes such as fertilizer blending and bagging.
- Knowledge of inventory systems, H&S regulations, and environmental standards.

This is a unique opportunity to join a values-driven organization with a strong reputation in the agricultural sector. The successful candidate will play a key role in shaping operational strategy, ensuring technical reliability, and delivering exceptional service to customers.
