### Responsibilities

- Operate dry fertilizer application equipment using onboard technology to deliver timely, accurate applications.
- Daily inspection and maintenance of equipment in such a manner to optimize efficiency and accuracy as well as minimize downtime.
- Operate applicator equipment independently with high accuracy and efficiency, including basic troubleshooting, minor repairs, and GPS/software setup and calibration.
- Provides operational support and mentorship to junior or seasonal applicators as needed.
- Strong commitment to safety procedures and regulatory compliance during all operations.
- Maintains a respectful, inclusive, and customer-focused approach when working with customers and team members.
- Responsible for the complete care, cleaning, and maintenance of equipment, ensuring it is ready for operation at the end of every shift.

### Qualifications

- Valid AZ or DZ license (or actively working toward one); experience operating agricultural equipment is an asset.
- 3+ years of experience operating agricultural application equipment preferred.
- Demonstrated ability to operate independently with minimal supervision.
- Strong communication, attention to detail, and the ability to perform in a fast-paced, seasonal environment (including extended hours as required).
- Confident with current computer technology and various GPS software platforms
- Comfortable operating farm equipment and delivery trucks
- Interest in leadership, management and entrepreneurship is strongly encouraged.
